KNOXVILLE, TENNESSEE

Payroll Deductions for Retirement and TAKE STOCK Plans

Retirement plan

Payroll deductions for the retirement plan (variable annuity, fixed annuity, or both) are expressed as a percentage rate of your salary:

- The STANDARD rate is 6% of salary.
- The MINIMUM rate is 6% of salary reduced by 3% on salary up to the current Social Security base (now \$7,800).
- The MAXIMUM rate is different for each individual member; the Retirement System will figure it for you on request.

TAKE STOCK plan

Participation in the Voluntary Retirement Savings and Investment (TAKE STOCK) Plan is optional. It lets a member acquire an equity in mutual fund shares through payroll deductions.

If a member of the Retirement System is regularly buying U. S. Savings Bonds through payroll deductions, he is eligible to TAKE STOCK in the Fidelity Trend Fund, which seeks capital growth, or the Puritan Fund, which primarily emphasizes investment income; or he can save in both funds.

Payroll deductions for the TAKE STOCK plan are expressed in whole dollars:

- The minimum is \$5 if you invest in only one mutual fund; or \$10 if you put money in both Fidelity Trend and Puritan funds.
- The maximum depends on how much you contribute for your annuity in the retirement plan. You can have total deductions — in both the retirement and TAKE STOCK plans — of no more than 16% of salary.

Form RS-132, TAKE STOCK Deductions and Retirement Contributions

Use this form

- to put money in either one of the mutual funds or both of them

- to continue your present retirement percentage or change it.

Discuss it with your family and decide how much you want to invest in the TAKE STOCK plan. Then fill out form RS-132 (or first send a note to the Retirement System if you need help about your retirement percentage before you decide).

- Insert the number of dollars you want to put in one or both funds.
- Check any change you want to make in your present retirement percentage.
- Sign form RS-132, enter the date and your home address, and send the form to the TVA Retirement System through interoffice mail.

Your payroll deductions will start as soon as possible after your form RS-132 is received. You can stop the TAKE STOCK deductions or change the amount at any time. You'll get a quarterly statement showing the dollars you've put in and your equity expressed in mutual fund shares credited to your account.

You'll also get quarterly reports from both funds if you authorize deductions in either fund.

If you decide not to save through the TAKE STOCK plan right now, hold the form for possible use later.

Beneficiary

The beneficiary you have named to receive your retirement plan contributions will be the beneficiary for your TAKE STOCK plan equity unless you designate another one. If you want to designate a different beneficiary for your TAKE STOCK plan equity, check the last box under TAKE STOCK plan on form RS-132; the Retirement System will send you form RS-2B, Beneficiary Designation for Voluntary Retirement Savings and Investment Plan.
